

WGSS Master Graduate Course List Under Semesters

Additional WGS courses and cross-listed courses with WGS numbers will be added as they become available and courses below subject to change. Required WGS courses are offered annually (although only during particular semesters), but WGS electives, including cross-listed ones, are offered less frequently (every other, two, or three years or only very occasionally). Consult the UC Registrar’s One-Stop for courses actually offered each semester. WGSS graduate courses are not offered during Summer, except an independent study or research course for students needing to sustain their student status through registering for 1 credit annually should they not complete their projects and oral exam in a timely fashion and are not in other degree programs at UC. Graduate Independent Study, Independent Research, and Internship require advance contracts with faculty or agency supervisors.

<u>7000 level</u>	<u>Course Number</u>	<u>Course Title</u>
	WGS 7000	Proseminar I: Professional Development
	WGS 7001	Proseminar II: Directed Readings
