

## STANDARDIZE SCHEDULES FOR GA PAYMENTS IN A&S

In FY'09, A&S is established standard schedules for GA appointments, one for students on academic year appointments (18 biweeklies) and one for students on year-round appointments (26 biweeklies). At the time, the action was taken to address two issues: OPERS exemption for students and the biweekly accrual process that occurs at fiscal year-end. Since that time, the standardization has led to more consistent payment for our graduate students, more consistent administrative practices, and ease in reconciling of GA allocation funds and of generating comparable data across programs. Please review the GA Pay Calculator that is updated annually. It indicates the dates to start and stop academic year and semester payments. [A&S GA Pay Calculator-FY15](#)

If your department is unable to conform to these schedules, or you have concerns or questions about the schedules, please contact Barb Huels (6-5845).
