# Anthropology

**Anthropology** is the science that studies human variation from its beginnings millions of years ago to the present day. Anthropology majors take courses distributed among cultural anthropology, biological anthropology, archaeology, and linguistics. To an anthropologist, diversity itself — seen in body shapes and sizes, blood types, different kinds of languages, customs, clothing, religion and ideas about the world — provides a frame of reference for understanding any single aspect of life.

## Examples of our unique degree possibilities

**BA, minor in Archaeology w/ a certificate in Heritage Studies**

**BA, minor in Environmental Studies w/ a certificate in Historic Preservation**

*"As a first-gen student I was unsure of myself, but A&S allowed me to overcome my fears and doubts to create a solid foundation for my educational and personal goals. I would recommend A&S to students who want to learn life-long, transferable skills. The confidence and sense of community they'll find at UC will change their lives forever."*
